

Health Sciences and Engineering Room 116

Room 116 displays the computer onto two, 100 inch televisions at the front of the classroom. The Anatomage system can connect to the displays, creating a larger copy of the anatomy shown on the electronic table (shown in the photo below). The classroom computer can also be projected onto one or both televisions.

The controls for the televisions are located on the wall, to the left of the displays.

To use the system, press the **ON** button

To display the computer on the televisions, press the **PODIUM AV1** button under the left display and/or right display

To display the Anatomage table, press the **Sim AV1** under the left display, and **SIM AV2** under the right display
