

To display an Apple Device on the Television Using Apple TV:

1. Turn on the television using the Sony remote control.

2. Change the television input to **APPLE TV** by pressing the input button on the Sony remote control, then using the arrow button to move over the **APPLE TV** input; it is then selected and displayed on screen.

3. Follow the directions on the screen to pair your device with the Apple TV using AirPlay.
4. You may need to wake up the Apple TV device by pressing the buttons on the Apple TV remote control.
